

Bring Back My Family to Me

Tune: My Bonnie Lies Over the Ocean

My dear husband just got arrested While being at work for the day They say he is no longer legal

And now they will send him away Bring back, bring back

Please bring back my darling to me, to me Please don't send him off

To another country My daughter got pulled from her studies While she was sitting in class She tried to show them her visa They said it would no longer pass Bring Back, bring back Bring back my sweet daughter to me, to me Please don't send her away And throw out the key We need to start paying attention Before things even get worse This isn't a government for us It's actions are more like a curse Bring back, bring back Bring back the country we love, we love Impeach the traitor And give his fat ass a big shove If you want to get rid of a migrant We have a suggestion for you We do know a person worth sending We think that Melania will do Send back, Send back Oh let's send Melania today, today She killed the Rose Garden So please let us send her away
