

Voting Ragin' Granny

Tune: Ramblin' Wreck from Georgia Tech

I'm a Voting Ragin' Granny, and you parties better heed
You candidates should not just talk but need to do the deed
If you want to get elected, put aside the greed
I'm a Voting' Ragin' Granny, and you parties better heed

The first to do, is end all wars, whether you're Blue or Red
Just end the wars and bring 'em home that's all that needs be said
Then next be real on climate change and ditch all fossil fuels
'Cause without real change, we'll ALL be dead and we ain't no fools.

Now we don't vote for party hacks, whether they're Red or Blue
We only vote the issues so just listen and be true
Single payer health care is only a fair tool
And while you're at it, fix it up so our kids go free to school

I'm a Voting' Ragin' Granny, and you parties better heed
You candidates should not just talk but need to do the deed
If you want to get elected, put aside the greed
I'm a Voting' Ragin' Granny, and you parties better heed
